RESPONSE UNDER 37 C.F.R. 1.116

This is in response to the Office Action mailed February 12, 2003, in which the Examiner rejected claims 1-3 under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent 6,289,455 to Kocher et al. in view of U.S. Patent 5,864,683 to Boebert et al.; claims 4-7 under 35 U.S.C. 103(a) as being unpatentable over Kocher et al. in view of Boebert et al.; claims 8-13 under 35 U.S.C. 103(a) as being unpatentable over Kocher et al. in view of Boebert et al.; claims 14-17 under 35 U.S.C. 103(a) as being unpatentable over Kocher et al. in view of Boebert et al.; and claims 18-20 under 35 U.S.C. 103(a) as being unpatentable over Kocher et al. in view of Boebert et al.

Applicant believes that the Kocher et al. patent is an improper reference. In particular, the Kocher et al. patent bears a

filing date of September 2, 1999. While the subject application has a filing date of December 3, 1999, Applicant would like to point out to the Examiner that the subject application claims priority based on Provisional Patent Application Serial No. 60/126,169, filed March 25, 1999. This claim was acknowledged by the USPTO in the Official Filing Receipt.

Since the effective filing date of this application is now March 25, 1999, this pre-dates the filing date of the Kocher et al. patent, and as such, Applicant respectfully requests that all rejections based thereon be withdrawn.

Applicant would like to point out that in the Office Action mailed August 19, 2002, the Examiner acknowledged "Kocher et al (6,289,455B1) is inapposite in this case as being more recent a reference that the priority date of this application."

Applicant believes that this application, containing claims 1-20, is now in condition for allowance and such action is respectfully requested.

Respectfully submitted,
